

For international students, researchers, and their families

竹の子にほんごテーブル

TAKENOKO NIHONGO TABLE

Takenoko Nihongo table provides an engaging activity for international students, researchers, and their families to enhance their Japanese language skills through interactions with locals in a friendly environment. Beyond language learning, this program provides opportunities to learn about Japanese culture from native people. Participants of all language proficiency levels are invited to partake in this enriching experience.

The Takenoko Nihongo table is organized by Takenoko Nihongo Kōryūkai, a group of native Japanese volunteers who partner with the Center of International Education and Exchange at Osaka University. Our aim is to create a warm international environment and help foreigners have a great time during their stay in Japan.

What you will experience at TAKENOKO NIHONGO TABLE:
For example,

1. Enjoy conversation in Nihongo (Japanese) with your Japanese partner.
2. Get to know Japanese people, culture, society, etc., directly from native Japanese.
3. Get useful information that makes your life and stay easier and more comfortable.
